Bone Regeneration in the Digital Era: Where are We in 2025? *Customized CAD/CAM Titanium Meshes versus GBR and Bone Blocks*

SATURDAY, APRIL 26TH 2025 | 7:30 AM – 12:00 PM CST

7:30AM CONTINENTAL BREAKFAST | 8:00AM-12:00PM LECTURE + HANDS-ON COURSE

Marriott Dallas/Addison Quorum Galleria – 14901 Dallas Parkway, Dallas, TX 75254

CE CREDIT HOURS: 4 | Tuition: Complimentary

Customized Solutions

LEARNING OBJECTIVES:

- How to optimize the treatment planning of a case presenting with soft/hard tissue defects following the Prosthetically Guided Regeneration (PGR) principle
- To present documented surgical alternatives, highlighting advantages and disadvantages
- Review regenerative biomaterials for soft and hard tissue augmentation
- How to reduce complexity and morbidity with the aid of digital technologies, with a specific focus on custom-made, CAD/CAM titanium meshes
- Provide the most important tips and tricks to optimize results and minimize or manage complications related to protected regeneration with Titanium meshes

HANDS-ON WORKSHOP (PIG JAW MANDIBLE)

- Case planning and managing the digital workflow for customized CAD-CAM titanium mesh
- How to choose grafting materials for bone augmentation, inclusive of harvesting bone chips
- How to position, fill with grafting material and stabilize the titanium mesh
- How to release soft tissues to obtain water-tight and tension-free suture

MATTEO CHIAPASCO, MD • MILAN, ITALY

Dr. Matteo Chiapasco is an Oral and Maxillofacial Surgeon, with an MD from the University of Milan. He is a Professor and Head-Unit of Oral Surgery at the University of Milan and Visiting professor at Loma Linda University and University of Lisbon. He is on the editorial board and an expert for several prestigious international journals and the author of over 400 publications in national and international journals and 15 books on oral and maxillofacial surgery. Dr. Chiapasco practices oral and maxillofacial surgery, implant surgery, reconstructive surgery of the facial skeleton for implantological purposes and facial dysmorphic surgery as a freelancer at the Narcodont center in Milan, where he collaborates with a group of colleagues who are experts in dentistry, orthodontics, otorhinolaryngology and facial cosmetic surgery.
