

NOV 27 – DEC 1, 2023

IMPLANT MASTER SESSION IN LOS ANGELES, CA

**WITH DR SASCHA JOVANOVIC, DR DENNIS HUNT,
DR TAKUYA SATOH, DR NATASA GREGORIC AND DR MILES MADISON**

**Learn Digital Planning, Molar and Incisor Replacement, GBR and
Soft Tissue Grafting, Smile Design and Esthetic Implant Therapy**

LECTURES & LIVE SURGERY

Restorative and esthetic topics involved in osseointegration and implant prosthodontics will cover multiple teeth, and single tooth restorations. Live surgery by faculty will show the step by step of surgical implant placement, tissue management and regeneration and pre and post op work up.

9 HANDS-ON WORKSHOPS

9 Hands-on workshops with plastic and fresh porcine jaw models will be performed over the 5 days. The placement of 12 dental implants using microsurgical Hu-Friedy hand instruments, nylon and PTFE suture materials, W&H drill units, Straumann BLT, BLX and TLX implant systems, GBR bone regenerative biomaterials, digital photography steps and 3Shape scanning protocols are performed by the class.

DIGITAL WORKFLOW

The digital workflow with implant planning using the Co-Diagnostix software (class students have 1-year free access), the 3D printing of surgical guides and provisionals will be highlighted.
