Geistlich Panorama®

The soft lip and cheek retractor for improved visibility and access during non-surgical parts of dental treatments.

Patient-friendly

- High wearing comfort for your patients*
- Soft, flexible material for a gentle feel
- 100% latex-free – safe for sensitive patients

Time-saving

- Clear visibility and unobstructed access to the treatment area*
- No need for additional tools to retract lips or cheeks
- Promotes a relaxed experience for the patient
- Reliable moisture control for efficient procedures

Versatile use

Geistlich Panorama® is ideal for a wide range of clinical uses*:

- Diagnostic assessments
- Non-surgical periodontal treatments, including root scaling
- High-quality photo documentation
- Post-surgical maintenance and follow-up care
